SENIOR PRODUCT DESIGNER

dalit@dalitdesigns.com

Hello, my name is Dalit Barrett and I am a Senior Product Designer from Austin, Texas. I bring hard work, passion and dedication to every project I take on. I've had a lot of experience working with design teams and truly understand what needs to be done to ensure a smooth delivery from initial concept to the final design.

Austin TX 78704

As a very detail-oriented individual with a strong background in team collaboration and project management, I have a proven track record of delivering creative and user-friendly designs on time. I have worked as a Senior Designer for Paperless Post, Sparemin, and Leafly, and have also provided freelance design services to a variety of clients such as Bloomfire, Spredfast, Vitamin Water, and Target. In each of these roles, I have applied my skills in many areas of product design to create engaging and intuitive digital products that meet the needs of users and exceed the expectations of my clients.

I am committed to creating user experiences that make a meaningful impact on people's lives. With a detail-oriented and hardworking approach to problem-solving, I can distill complex situations into intuitive solutions and drive product development from start to finish. I am both a team player and an independent worker, able to collaborate and develop features that meet both user needs and business goals. I am constantly working to improve my skills and knowledge through professional development opportunities, and I am confident in my ability to deliver high-quality designs that meet the needs of any project.

I would love the opportunity to bring my skills and experience to a design position and contribute to the company's success. Thank you for considering my application. I look forward to discussing this opportunity further.

Thank you for your time!

Dalit Barrett
